

On Tuesday, March 22, the Board met with consultants Drs. Lawrence and Ramming to review the materials provided by 14 candidates. Taking into consideration the feedback from stakeholders and the criteria included in the vacancy notice, the Board has selected six individuals for first-round interviews. First-round interviews will occur in early April with final interviews concluding later that month. It is our goal to appoint a new Superintendent of Schools on or about May 18.

These are exciting times, and we appreciate your input in this process.
