November 16, 2022

Dear Parents and Families,

As we were building our schedule for this school year, we focused on our continued efforts to assist our high school students in math; we have created “Math Labs”. These “Labs” are scheduled during the school day during Pd. 5, 6 and 7. Our math teachers provide extra help to any student. Students can report to the teachers during their lunch and/or Study Hall.

With the ending of the 1<sup>st</sup> quarter, we are reviewing ways to assist students who are experiencing academic difficulties. On November 30, the guidance office will start sending passes out to any student who is not passing math resource. Our counselors will use the weekly Academic Eligibility list to identify students.

We are asking that you discuss this option with your student and help us encourage them to use the lab as often as possible. Please feel free to contact either your student’s math teacher or the High School Guidance Office if you have any questions.

As the year progresses, we will continue to look at ways we can assist our students, during the school day, in meeting academic expectations.

Thank you for your help as we work with all students towards academic success.

Sincerely,

Mark J. Plescia  
HS Principal
