January 7, 2021

Dear Bulldog Parent(s) and Guardian(s):

Earlier today, we received confirmation from the Sullivan County Public Health Department that a student at the Elementary School has tested positive for COVID-19. That student was last on campus at the Elementary School on Monday of this week. After discussion with the Public Health Department, we began the process of identifying students and staff members who may have been in prolonged contact with this student on Monday of this week. At this point, all staff members who were identified to have been in contact with this student, as well as the parents of all students who were identified to have been in contact with this student, have received communication from the School District. A representative from the New York State Contact Tracing Division will be contacting these individuals as well, in order to provide further information.

Our Elementary School remains open for in-person instruction today, and we plan for the School to be open for in-person instruction tomorrow, Friday, January 8. If further events require a change in the status of in-person instruction at the Elementary School tomorrow, we will notify you of any change.

Please be advised that, due to privacy laws, we cannot release any personally identifiable information regarding any student or staff member.

Thank you for your ongoing support of your students and our schools.

Sincerely yours,

Stephen A. Walker
Superintendent of Schools

“...enriching the lives of all students”
